

Features

- High Dust Holding
- 15/40 denier, graduated density air entry layer with 6 denier, needled air exit layer
- Wet tackifier between the layers
- Available in multi-pockets and cubes

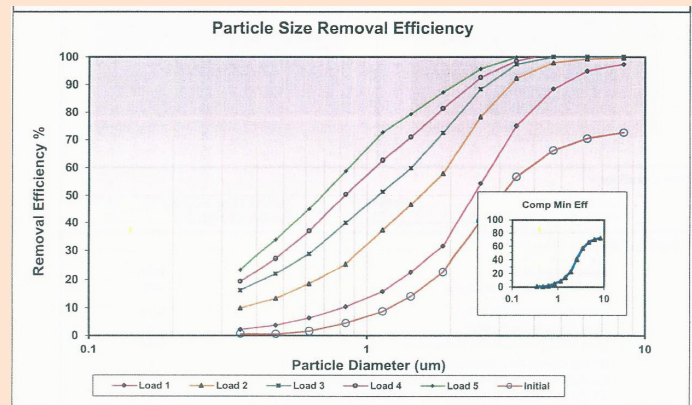

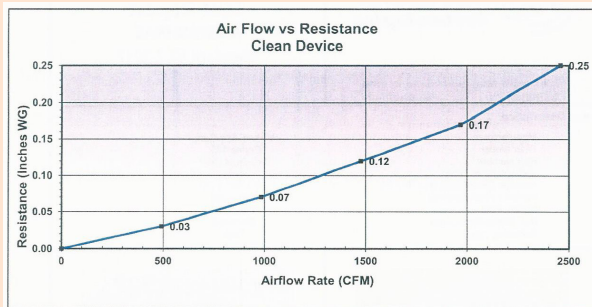

Ideal for:

- Commercial Applications
- HVAC Applications
- Manufacturing Plants
- Paint Booths
- Auto Assembly Plants

Construction

- Galvanized wire
- Self supporting
- 100% non-shedding fibers

Performance Data

Rating	MERV 7 @ 1968CFM
Dust Holding Capacity	916 grams
Initial Resistance	.17 in w.g.
Final Resistance	1.50 in w.g.
