

# Clearcare™ Surgical Face Masks

**100% AMERICAN-MADE PPE**

With our country's supply chains being taxed, businesses need a PPE supplier they can count on. Viskon-Aire, through Rensa Filtration, is applying its air-filtration expertise to help America get back to work safely. Clearcare™ Surgical Face Masks are in-stock and **ready to ship**.

## **High-quality**

Made from virgin fibers—never recycled.

## **Comfortable**

Fabricated with more non-woven materials per mask for a softer, more comfortable feel.

## **Reliable**

Backed by Viskon-Aire and Rensa's experienced operations for a consistent, quality product every time you order.

## **Manufactured in Illinois**

Produced by our team in Elk Grove, from a 100% American supply chain. Each mask you buy supports jobs here at home.

### **Pack quantities\*:**

- **1 box** (50 masks)
- **10 boxes** (500 masks) in small carton
- **40 boxes** (2,000 masks) in large carton

\*Orders for fewer than 10 boxes will be referred to our distributor

# Clearcare™ Surgical Face Masks

**American-made PPE from air filtration experts.**

## **Certified to protect. Tested to the highest standards.**

Our PPE is certified to protect and is tested to the highest ASTM standards—the world's leading technical standards for fluid resistance, filtration and breathability. We use Nelson Labs, the only U.S.-based laboratory testing face masks to these standards.

Viskon-Aire is part of the Rensa family of air filtration companies, backed by over 100 years of industry expertise. We deliver best in-class air-filtration solutions that keep people safe so business and industry can thrive.

High-quality, ultra-comfortable Clearcare™ Surgical Face Masks provide our customers what they urgently need; everyday protection to keep communities safe and businesses running.

**All Day Comfort**

**Superior Protection**

**Tested & Certified**

**Ready to Ship**
